Burlington County IDRC Updated 07/13/2026
Affiliated Provider List

Directions:

1. Select a provider from the above list. Confirm the insurance/payment options as well as the location that will work for you.
    a. It is possible the assessment will be more than one appointment, **or, the assessment may result in a recommendation to treatment.** So select a provider that is easiest to access for you in terms of cost and location.
    b. If you do not have insurance, sliding scale is an option that will go based on your income. DUII is a funding option for individuals without insurance, but there are certain criteria to qualifying.
2. Complete signed releases (3) and return to IDRC staff. Your name must be on them, printed and signed, as well as the name of the treatment agency you've selected.
3. Contact the treatment agency to make an appointment. When you're calling, request to schedule an assessment and inform that you are referred from IDRC. They'll know what to do then.
4. Attend the appointment.
5. Follow assessment recommendations.
    a. If no treatment was recommended, contact the IDRC to close your case.
    b. If treatment was recommended, treatment must be completed successfully for your case to be closed with IDRC.
        i. You may contact the IDRC regarding a second opinion, however, if treatment is recommended a second time, that is the requirement that must be fulfilled.

If you are choosing a non-affiliated provider, the agency must be approved by the IDRC first, as not all treatment facilities are licensed to provide assessments/treatment that meet the IDRC requirements. Proceeding with a non-affiliated provider without approval may result in denial of the assessment/treatment provided.
